#### **Independent Auditor's Report**

The Honorable Mayor and Council City of LeRoy, Illinois

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of LeRoy, Illinois ("City"), as of and for the year ended April 30, 2023, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of LeRoy, Illinois as of April 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with the accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of LeRoy, Illinois, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirement relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis; the Illinois Municipal Retirement Fund - Schedule of Changes in the City's Net Pension Liability and Related Ratios; the Illinois Municipal Retirement Fund – Schedule of Employer Contributions; and budgetary comparison information on pages 47 through 59 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Striegel Knobloch & Co L.L.C.

Bloomington, Illinois September 28, 2023

# Reconciliation of the Statements of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds to the Statement of Activities

Net change in fund balance - total governmental funds	\$ 540,995
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported as expenditures in this fund financial statement because they use current financial resources, but they are presented as assets in the statement of activities and depreciated over their estimated economic lives. Depreciation (\$320,723)	
for the year is more than capital outlays (\$221,603) reported in the general fund.	(99,120)
Net change in IMRF pension obligations is an expense on the statement of activities, however, it does not use financial resources	
and is not an expenditure on the statement of revenues, expenditures, changes in fund balance	440
Net change in compensated absences is an expense on the statement of activities, however, it does not use financial resources and is not an expenditure on the statement of revenues, expenditures,	
changes in fund balance	(11,574)
Repayment of bond principal is an expenditure in the fund financial statements; however the repayment reduces long-term liabilities on the statement of net position.	340,329
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore,	c , c _ s
are not reported as expenditures in the fund financial statements.	577
Change in net position of governmental activities	\$ 771,647

#### **Notes to Financial Statements**

**April 30, 2023** 

#### **Note 1 – Summary of Significant Accounting Policies:**

#### Reporting Entity

The City operates under a City Council – Mayor form of government and provides the following services: public safety, streets, sanitation, health and social services, parks and recreation, building and zoning, water, sewer, refuse disposal, and general administrative services.

In evaluating how to define the government for financial reporting purposes, the City has considered all potential component units. Generally accepted accounting principles require that the financial statements present component units for which the City is considered to be financially accountable. The City has determined that it is not financially accountable for any component units and, therefore, no component units have been made part of this statement.

#### Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided by a given function or segment, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### Notes to Financial Statements – Continued

#### **April 30, 2023**

#### Note 1 – <u>Summary of Significant Accounting Policies – Continued</u>:

Measurement Focus, Basis of Accounting, and Financial Statement Presentation – Continued Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and expenditures related to claims and judgments are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The funds are grouped into two fund types and four generic funds as described below:

#### Governmental Fund Types

These are the funds through which most governmental functions typically are financed. The funds included in this category are as follows:

General Fund – This fund is established to account for resources devoted to financing the general services that the City performs for its citizens. General tax revenues and other sources of revenue used to finance the fundamental operations of the City are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

Special Revenue Funds – These funds are established to account for the proceeds of specific revenue sources other than special assessments, expendable trusts, or major capital projects that are legally restricted to expenditures for specified purposes.

Debt Service Funds – These funds are established for the purpose of accumulating resources for the payment of interest and principal on long-term general obligation debt other than that payable from enterprise funds.

Capital Projects Fund – This fund is established to account for major capital expenditures not financed by enterprise funds.

#### Notes to Financial Statements – Continued

#### **April 30, 2023**

#### Note 1 – <u>Summary of Significant Accounting Policies – Continued</u>:

Measurement Focus, Basis of Accounting, and Financial Statement Presentation - Continued

#### Governmental Fund Types – Continued

The City reports the following major governmental funds:

General Fund is the principal operating fund of the City, which is used to account for all activities of the City not included in other specified funds.

<u>2016A General Obligation (Alternative Revenue Service) Bond Fund</u> is a debt service fund used to account for and report financial resources that are restricted, committed, or assigned to expenditures related to the servicing the debt of the 2016A General Obligation Bond. Revenues are generated from sales and income taxes.

<u>2020/2021 Series Capital Projects Fund</u> is a capital project fund used to account for and report the financial resources that are restricted, committed, or assigned with purchases using the 2020 & 2021 General Obligation bond proceeds.

The effect of inter-fund activity has been eliminated from the government-wide financial statements.

#### Proprietary Fund Types

These funds account for operations that are organized to be self-supporting through user charges. The funds included in this category are the Enterprise Funds.

Enterprise Funds – These funds are established to account for operations that are financed and conducted in a manner similar to private business enterprises, where the intent is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

The City reports the following major proprietary funds:

The <u>Water</u>, <u>Sewer</u>, and <u>Refuse Disposal</u> Funds account for the provision of water, sewer, and refuse disposal services to residents. All activities that are necessary to providing such services are accounted for in these funds, including, but not limited to, administration and billing operations, environmental monitoring, capital outlay and maintenance, financing, and related debt service.

#### Notes to Financial Statements – Continued

#### **April 30, 2023**

#### Note 1 – <u>Summary of Significant Accounting Policies – Continued</u>:

Measurement Focus, Basis of Accounting, and Financial Statement Presentation - Continued

#### Defining Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water Fund, Sewer Fund, and Refuse Disposal Fund are charges to customers for sales and services. The Water Fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

#### **Long-Term Obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

#### Cash and Cash Equivalents

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

#### Deposits and Investments

The Public Funds Investment Act of the State of Illinois allows municipalities to invest in the following:

- U.S. Treasury obligations
- Direct obligations of any bank as defined by Illinois Banking Act
- Certain corporate short-term obligations
- Certain public agencies
- Public Treasurers' Investment Pool
- Certain money market mutual funds

Investments are reported at cost, which approximates market value.

#### Notes to Financial Statements – Continued

#### **April 30, 2023**

#### Note 1 – <u>Summary of Significant Accounting Policies – Continued</u>:

Assets, Liabilities, and Net Position or Equity – Continued

#### Internal and Interfund Balances and Activities

In the process of aggregating the financial information for the government-wide Statement of Net Position and Statement of Activities, some amounts reported as interfund activities and balances in the fund financial statements have been eliminated or reclassified.

Interfund services are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except interfund services and reimbursements, are reported as transfers.

#### Property Tax Accrual

The City's property taxes are levied the last Tuesday in December each year on all taxable real property located in the City on January 1. Property taxes attach as an enforceable lien on property January 1 and are payable in two installments in June and September.

#### Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 for equipment, \$10,000 for improvements and \$50,000 for infrastructure assets (roads, bridges, culverts, curbs, sidewalks, lighting systems, gutters, drainage systems and similar). Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

Records of capital expenditures and depreciation were not maintained within the enterprise funds prior to May 1, 1975. Capital expenditures since this date have been accumulated and depreciated beginning in the year the assets were placed in service.

The costs of normal maintenance and repairs that do not add to the value of assets or materially extend asset lives are not capitalized.

#### Notes to Financial Statements - Continued

#### **April 30, 2023**

#### Note 1 – <u>Summary of Significant Accounting Policies – Continued</u>:

#### Assets, Liabilities, and Net Position or Equity - Continued

#### Capital Assets - Continued

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest expense was incurred by the City for construction projects during the current fiscal year.

Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
New Infrastructure	40
Road Improvements	10
Other Improvements	10
Vehicles 13,000 or more gross weight	7
Equipment	7
Vehicles under 13,000 gross weight	5
Tools	5
Appliances	5
Computers, servers, peripherals	3

#### Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation, personal time, and sick pay benefits. All vacation pay is accrued when earned. Payment of accumulated personal time and sick pay benefits varies depending on the circumstances of termination of employment. These benefits are accrued at fifty percent of the total amount earned but unused at fiscal year-end. For the Government-Wide statements, these accumulations are recorded as expenses and liabilities in the fiscal year earned.

#### Notes to Financial Statements – Continued

#### **April 30, 2023**

#### Note 1 – <u>Summary of Significant Accounting Policies – Continued</u>:

Assets, Liabilities, and Net Position or Equity – Continued

#### **Net Position**

The City has implemented GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position. The objective of this Statement is to provide financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by outstanding balances of any borrowings used for the acquisition or improvement of those assets.

#### <u>Fund Equity – Fund Financial Statements</u>

The City has implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used.

- Nonspendable fund balance amounts that are not in a spendable form (such as inventory, prepaid expenses, long-term receivables) or are required to be maintained intact;
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a
  government itself, using its highest level of decision-making authority; to be
  reported as committed, amounts cannot be used for any other purpose unless
  the government takes the same highest level of action to remove or change the
  constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are reported only in the general fund.

#### Notes to Financial Statements – Continued

#### **April 30, 2023**

#### Note 1 – <u>Summary of Significant Accounting Policies – Continued</u>:

#### Fund Equity – Fund Financial Statements – Continued

The City establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balances are established by the City through adoption or amendment of the budget as intended for specific purposes (such as the purchase of capital assets, construction, debt service, or for other purposes).

#### **Net Position Flow Assumption**

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted and unrestricted in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the City's policy to consider restricted to have been depleted before unrestricted is applied.

#### Fund Balance Flow Assumptions

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied.

It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

# Notes to Financial Statements - Continued

# **April 30, 2023**

# Note 2 – <u>Capital Assets</u>:

Capital asset activity for the year ended April 30, 2023, was as follows:

Governmental Activities	Beginning Balance	Increases	Decreases	Ending Balance

#### Note 3 – <u>Long-Term Debt</u>:

#### **General Obligation Bonds**

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. General obligation bonds currently outstanding are as follows:

The City authorized a General Obligation Bond (Alternate Revenue) issue of \$2,865,000 during the year ended April 30, 2017, to refinance existing bonds. During the current fiscal year, bonds in the amount of \$300,000 were retired. As of April 30, 2023, the City has outstanding Series 2016A General Obligation (ARS) bonds payable of \$1,380,000.

The City authorized a General Obligation Bond (Alternate Revenue) issue of \$2,510,000 during the year ended April 30, 2017, to refinance existing bonds and to provide cash for future capital projects. During the current fiscal year, bonds in the amount of \$220,000 were retired. As of April 30, 2023, the City has outstanding Series 2016B General Obligation (ARS) bonds payable of \$1,305,000.

The City authorized a General Obligation Bond (Alternate Revenue) issue of \$1,095,000 during the year ended April 30, 2020, to refinance existing bonds and to provide cash for future capital projects. There were no bonds that were retired during the current fiscal year. As of April 30, 2023, the City has outstanding Series 2020 General Obligation (ARS) bonds payable of \$1,095,000.

The City authorized a General Obligation Bond (Alternate Revenue) issue of \$3,440,000 during the year ended April 30, 2021, to refinance existing bonds and to provide cash for future capital projects. There were no bonds that were retired during the current fiscal year. As of April 30, 2023, the City has outstanding Series 2021 General Obligation (ARS) bonds payable of \$3,440,000.

Total general obligation bonds payable at April 30, 2023, are as follows:

2016A General Obligation Bond (Alternate Revenue)	\$ 1,380,000
2016B General Obligation Bond (Alternate Revenue)	1,305,000
2020 General Obligation Bond (Alternate Revenue)	1,095,000
2021 General Obligation Bond (Alternate Revenue)	 3,440,000
	\$ 7,220,000

The City did not issue and has no outstanding special assessment debt in the year ended April 30, 2023.

#### Notes Payable

The City borrowed funds from Busey Bank during the fiscal year 2018 for building renovations. The total amount borrowed, was \$275,000. The interest rate is 2.890%. The City will make semi-annual principal and interest payments of \$15,963 until the maturity of the note on August 28, 2027. These payments will be made from the General Fund. As of April 30, 2023, the City's outstanding balance on this note was \$133,614.

The City borrowed funds from Kansas State Bank during the fiscal year 2022 for equipment. The total amount borrowed, was \$83,670. The interest rate is 3.450%. The City will make annual principal and interest payments of \$15,220 until the maturity of the note on August 9, 2026. These payments will be made from the General Fund. As of April 30, 2023, the City's outstanding balance on this note was \$55,972.

The City borrowed funds from Kansas State Bank during the fiscal year 2022 for equipment. The total amount borrowed, was \$137,519. The interest rate is 3.450%. The City will make annual principal and interest payments of \$25,016 until the maturity of the note on August 9, 2026. These payments will be made from the Refuse Fund. As of April 30, 2023, the City's outstanding balance on this note was \$91,995.

#### **April 30, 2023**

#### Note 4 – Deposits and Investments with Financial Institutions:

The carrying amount of the City's deposits and investments with financial institutions was \$8,581,576 and the total institutions' balances were \$8,609,471. The institutions' balances are categorized as follows:

Amount insured by FDIC	\$ 256,337
Uninsured and collateralized with securities held by the	
pledging financial institution in the name of the City	 8,353,134
Total institutions' balances	\$ 8,609,471

The following securities were pledged as collateral for these deposits in excess of the maximum depository insurance:

Various municipal bonds with interest rates from 2.00% to 5.07% and maturities from March 1, 2026, through August 15, 2033 \$\frac{\text{Fair Value}}{\text{10,141,710}}\$

#### Note 5 – Property Taxes:

The City levies property taxes on the last Tuesday in December on all taxable real property located in the City on January 1. Property taxes attach as an enforceable lien on property as of January 1 and are payable in two installments in June and September.

Property taxes receivable as of April 30, 2023, consist of the following:

	202	22 Tax
	Lev	y Year
General Fund	\$	602,042

## **Note 6 – Defined Benefit Pension Plan:**

The City's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The City's plan is affiliated with the Illinois Municipal Retirement Fund ("IMRF"), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at www.imrf.org.

#### Notes to Financial Statements - Continued

#### April 30, 2023

#### **Note 6 – Defined Benefit Pension Plan – Continued:**

## Plan Description

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Public Act 96-0889 created a second tier of IMRF's Regular Plan. IMRF assigns a benefit tier to a member when they are enrolled in IMRF. The tier is determined by the member's first IMRF participation date. If the member participated in IMRF before January 1, 2011, they participate in the *Regular Tier 1*. If the member participated in IMRF on or after January 1, 2011, they participate in *Regular Tier 2*.

For Regular Tier 1, pension benefits vest after eight years of qualifying service credit. Participating members who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3 % of their final rate (average of the highest 48 consecutive months' earnings during the last 10 years) of earnings for each year of credited service up to 15 years and 2% for each year thereafter to a maximum of 75% of their final rate of earnings. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

For Regular Tier 2, pension benefits vest after ten years of service. Participating members who retire at age 62 (with reduced benefits) or after age 67 (with full benefits) with ten years of service, or age 62 with 35 years of service, are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1  $^{2/3}$  % of their final rate (average of the highest 96 consecutive months' earnings during the last 10 years) of earning for each year of credited services up to 15 years and 2% for each year thereafter to a maximum of 75% of their final rate of earnings. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age of 67, by the lesser of 3% of the original pension amount or  $\frac{1}{2}$  of the increase in the Consumer Price Index of the original pension amount.

## Plan Membership

At December 31, 2022, the measurement date, membership of the plan was as follows:

Retirees and beneficiaries	15
Inactive, non-retired members	18
Active members	<u>18</u>
Total	<u>51</u>

#### Notes to Financial Statements – Continued

#### **April 30, 2023**

#### **Note 6 – Defined Benefit Pension Plan – Continued:**

#### **Contributions**

As set by statute, City regular plan members are required to contribute 4.50% of their annual covered salary. The statutes require the City to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The City's annual required contribution rate for calendar year 2022 was 7.58%. The City also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

#### Net Pension Liability / (Asset)

The net pension liability / (asset) was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability / (asset) was determined by an annual actuarial valuation as of that date.

#### Summary of Significant Accounting Policies

For purposes of measuring the net pension liability / (asset), deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of IMRF, and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **Actuarial Assumptions**

Total pension liabilities for the Regular plan were determined by actuarial valuations performed as of December 31, 2022 using the following actuarial methods and assumptions:

	<u>Regular Plan</u>
Actuarial cost method	Entry age normal
Asset valuation method	Market value

#### Actuarial assumptions:

Investment rate of return 7.25%

Salary increase 2.85% to 13.75%, including inflation

Price inflation 2.25%

#### Notes to Financial Statements – Continued

#### **April 30, 2023**

#### **Note 6 – Defined Benefit Pension Plan – Continued:**

#### Mortality

For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020.

For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

#### Long-Term Expected Real Rate of Return

The long-term expected rate of return on pension plan investments was determined using an asset allocation study in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce long-term expected rate of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

			Projected F	Returns/Risk
	Target	Return	One Year	Ten Year
Asset Class	Allocation	12/31/2022	<u>Arithmetic</u>	Geometric
Equities	35.5%	-19.12%	7.82%	6.50%
International equities	18.0%	-17.86%	9.23%	7.60%
Fixed income	25.5%	-11.83%	5.01%	4.90%
Real estate	10.5%	12.83%	7.10%	6.20%
Alternatives	9.5%	3.99%		
Private equity		N/A	13.43%	9.90%
Hedge funds		N/A	N/A	N/A
Commodities		N/A	7.42%	6.25%
Cash equivalents	1.0%	3.18%	4.00%	4.00%

#### Notes to Financial Statements – Continued

**April 30, 2023** 

#### **Note 6 – Defined Benefit Pension Plan – Continued:**

#### Discount Rate

The discount rate used to measure the total pension liability for IMRF for December 31, 2022, was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that city contributions will be made at rate equal to the differences between actuarially determined contribution rates and the member rate. Based on those assumptions, the fiduciary net position was projected not to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments of 7.25% was blended with the index rate of 4.05% for tax exempt 20-year general obligation municipal bonds with an average AA credit rating at December 31, 2022 to arrive at a discount rate of 7.25% used to determine the total pension liability. The year ending December 31, 2122, is the last year in the 2023 to 2122 projection period for which projected benefit payments are fully funded.

#### **Discount Rate Sensitivity**

The following is a sensitivity analysis of the net position liability / (asset) to changes in the discount rate. The table below presents the pension liability of the City calculated using the discount rate of 7.25% as well as what the net position liability / (asset) would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	Current			
	1% Decrease Discount Rate 1% Increase			
Total pension liability	\$ 6,802,472 \$ 6,127,659 \$ 5,593,657			
Plan fiduciary net position	<u>5,807,753</u> <u>5,807,753</u> <u>5,807,753</u>			
Net position liability / (asset)	\$ <u>994,719</u> \$ <u>319,906</u> \$ <u>(214,096)</u>

#### Notes to Financial Statements - Continued

#### **April 30, 2023**

#### Note 6 – <u>Defined Benefit Pension Plan – Continued</u>:

#### Pension Expense and Deferred Inflows/Outflows of Resources

For the year ended December 31, 2022, the City recognized pension expense of \$108,447 for the Regular Plan. The City reported deferred outflows and inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Regular:		
Difference between expected and actual experience	\$ 63,563	\$ 122,442
Assumption changes	-	8,790
Net difference between projected and actual earnings on pension plan investments	996,409	584,665
Total deferred amounts to be recognized in pension expense in future periods	\$ <u>1,059,972</u>	\$ <u>715,897</u>
Pension contributions made subsequent to the measurement dates	20,732	
Total deferred amounts related to pension	\$ <u>1,080,704</u>	\$ <u>715,897</u>

The amounts reported as deferred outflows resulting from contributions subsequent to the measurement date in the above table will be recognized as a reduction in the net position liabilities / (asset) for the year ending December 31, 2022. The remaining amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year	Net Deferred
Ending	(Inflows) / Outflows
December 31,	of Resources
2023	\$ (44,611)
2024	18,975
2025	139,509
2026	250,934
2027	-
Thereafter	
Total	\$ <u>364,807</u>

## **Note 7 – Revenue from Governmental Units:**

The City receives a substantial amount of its revenue from state and local governments. If a material reduction in the level of this revenue were to occur, it would have a significant effect on the City's activities.

<sup>(</sup>b) To transfer cash for debt service payments.

<sup>(</sup>c) To reimburse capital project expenditures.

#### Notes to Financial Statements – Continued

#### **April 30, 2023**

#### Note 8 – Interfund Loans and Transfers – Continued:

#### Origin of Interfund Balances

During the course of normal operations, the City has numerous transactions between funds including expenditures and transfers of resources, primarily to provide services. The interfund receivables/payables owed to the various funds reflect advances made and received that are still outstanding as of April 30, 2023. All interfund balances are expected to be repaid in a future fiscal year.

## Note 9 – Risk Management:

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Consequently, liability coverage has been obtained from a commercial insurance company. Tort liabilities are principally funded through property taxes. Taxes collected are recorded in the General Fund. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three years.

#### **Note 10 – Contingent Liability:**

The City is a party to various legal proceedings that normally occur in the course of governmental operations. While the outcome of the above noted proceedings cannot be predicted, due to the insurance coverage maintained by the City, the City feels that any settlement or judgment not covered by insurance would not have a material adverse effect on the financial condition of the City.

#### Note 11 – <u>Legal Debt Margin</u>:

The statutory debt limit of the City is 8.625% of assessed valuation less any applicable debt. The legal debt margin is as follows:

Total Assessed Valuation – 2022 Tax Year	\$	62,053,339
Statutory Debt Limitation (8.625% of Assessed Valuation)	\$	5,352,100
Total Applicable Debt		(281,581)
Legal Debt Margin	\$_	5,070,519

#### **Note 12 – Subsequent Events:**

No events have occurred subsequent to April 30, 2023, that are required to be disclosed in these financial statements. This evaluation was made as of September 28, 2023, the date these financial statements were available to be issued.

**Required Supplementary Information**

#### Note to schedule:

The City implemented GASB Statement No. 68 in Fiscal year 2016. Information prior to fiscal year 2016 is not available.

## Illinois Municipal Retirement Fund Schedule of Changes in the City's Net Pension Liability and Related Ratios – Continued

## **Last 10 Calendar Years**

#### **Notes to Schedule:**

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.

## Changes is assumptions:

- For 2014, changes are primarily from adopting an IMRF specific mortality tables with fully generational projection scale MP-2014 (base year 2014) developed from the RP-2014 mortality tables.
- For 2015, changes are primarily from a change in the calculated single discount rate from 7.49% in 2014 to 7.47% in 2015.
- For 2016, changes are primarily from a change in the calculated single discount rate from 7.47% in 2015 to 7.50% in 2016.
- For 2017, changes are primarily from adopting an IMRF specific mortality tables with fully generational projection scale MP-2017 (base year 2015) developed from the RP-2014 mortality tables.
- For 2018, the assumed investment rate of return was lowered from 7.50% to 7.25%.
- For 2020, changes are primarily from adopting the Pub-2010, amount weighted, general mortality tables for retirees and active members.

2021		109,731		109,730		1		1,128,917	9.72%
2022		82,013	*	88,526		(6,513)		1,081,971	8.18%

#### Note to schedule:

The City implemented GASB Statement No. 68 in fiscal year 2016. Information prior to fiscal year 2016 is not available.

<sup>\* -</sup> Estimated based on contribution rate of 7.58% and covered valuation payroll of \$1,081,971.

## Illinois Municipal Retirement Fund Summary of Actuarial Methods and Assumptions

#### Valuation date

Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

#### Methods and assumptions used to determine contribution rates:

Actuarial cost method Aggregate entry age normal

Amortization method Level percentage of payroll, closed

Remaining amortization period 21 years closed period until remaining period reaches 15 years

(then 15 year rolling period).

Early Retirement Incentive Plan Liabilities: a period up to 10 years selected by the Employer upon adoption of ERI.

Asset valuation method 5-Year Smoothed Market, 20% Corridor

Wage growth 2.75%

Inflation 2.25%

Salary increases 2.85% to 13.75% including inflation

Investment rate of return 7.25%

Retirement age Experience based table of rates that are specific to the type of eligibility

condition. Last updated for the 2020 valuation pursuant to an experience

study of the period 2017-2019.

Mortality For non-disabled retirees, the Pub-2010, Amount-Weighted, below-

median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected

Using scale MP-2020.

For disabled retirees, the Pub-2010, Amount-Weighted, below-median Income, General, Disabled Retiree, Male and Female (both unadjusted) Tables, and future mortality improvements projected using scale MP-

2020.

For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

Other information There were no benefit changes during the year

#### **Notes to Required Supplementary Information**

**April 30, 2023** 

#### **Note 1 – Budget Policy and Practice:**

The City Administrator serves the City as the Budget Officer.

The Administrator shall prepare an annual budget and an annual long-range capital improvement program for the City in connection with the budget and finance committee for presentation to the City Council. He shall prepare and submit to the Mayor and City Council, at monthly intervals, reports which will advise the City Council of the financial condition and future needs of the City. In so doing, the Administrator may make such other recommendations as he may deem appropriate. The Administrator shall assemble and make available such other information concerning the fiscal matters of the City as the Mayor or City Council shall periodically request.

On or before March 15 in each calendar year and before the annual budget ordinance is prepared by the corporate authorities, the Administrator shall submit to the corporate authorities an estimate of the money necessary to defray the City's expenses during the current fiscal year; this estimate shall classify in detail the purposes of the expenditures and shall further provide necessary information as to the income of the City from all sources during the preceding fiscal year and any liabilities, contingent or noncontingent, together with such other information as may be required to assist the Mayor and City Council in the preparation and adoption of the annual budget ordinance. For the purpose of preparing the above estimate, the Administrator shall work with the committees of the City Council and the other appointed and elected officers of the City to obtain statements of the conditions and expenses of the respective offices and departments, together with a description of necessary city repairs and improvements and the probable expense thereof. The Administrator shall further work with all city officials in helping to prepare information as may be necessary to enable the preparation of the annual tax levy ordinance. The Administrator shall also be responsible for the preparation of the annual budget ordinance and/or the annual tax levy ordinance.

The budget and finance committee will evaluate the operations budget, capital budget, property tax levy, and any requests for expenditures that exceed staff authority. This committee is responsible for the cash position of the City and will assist other committees with rate evaluations. Any issue that requires the expenditure of more than five thousand dollars (\$5,000.00) may be evaluated by the budget and finance committee.

Proposed budgets are provided to the public and public hearings are conducted to obtain taxpayer comments and comply with Illinois Compiled Statutes.

#### Note 2 – Expenditures in Excess of Budget:

During the year ended April 30, 2023, The City had no funds in which expenditures were in excess of budgeted amounts.
