

City of Le Roy

Permit for utility, ditch, or drain installation within the right of way streets and alleys.

1. Accompanying this permit shall be plans, map, or other appropriate drawings detailing the proposed installation.
2. For underground installation all asphalt, blacktop, concrete or brick surfaces (including private driveways) must be bored.
3. Upon completion of the work all surfaces disturbed shall be restored to a condition as good as its original state and to the satisfaction of the City of Le Roy.
4. This permit is granted with the understanding that should it ever be necessary to relocate the utility installed under this permit to provide for future street or alley construction or maintenance or the construction or maintenance of city water or sewer lines it will be done in a timely manner by the permittee at no expense to the City of Le Roy.
5. The proposed work is to be started on or about _____.
6. All work under this permit must be completed within 180 days from the date of approval of this permit; otherwise the permit is null and void.
